

EMEE 2018 - 11th International workshop on "Empirical Methods in Energy Economics"

June 14-15, 2018

Fondazione Eni Enrico Mattei
Corso Magenta 63, Milan, Italy

The 11th International Workshop on Empirical Methods in Energy Economics will be held in FEEM's premises in the Palazzo delle Stelline (Milan, Italy) on **14-15 June 2018**. It is intended as a forum for the development and application of empirical methods in energy economics. Details on previous workshops, along with information about joining the EMEE Network, can be found on the **EMEE webpage**.

To foster a lively debate and a comprehensive exchange of ideas about new empirical research in energy economics, the 2018 workshop will allow time for a full presentation and discussion of each contribution. All sessions are plenary (no concurrent presentations) to ensure the workshop participants' attendance at all presentations.

Registration will be possible **from mid-April 2018 till June 6th, 2018** (registration fee €180). **Final papers**, which will be available from the conference website, need **to be submitted by June 6th, 2018**.
