WORK EXPERIENCE

Apr 2018 – Oct 2018   **Intesa Sanpaolo**   Milano, IT

Intern

- I worked in the bank's research department, focusing on commodity markets. My main task was the production of daily, weekly and monthly reports, in support of Banca IMI's traders and institutional customers. During this internship I strengthened my knowledge of financial markets and learned how to proficiently use the Bloomberg Terminal.

Mar 2015 – Jul 2015   **CYFI International**   Amsterdam, NL

Intern

- I took the unusual choice to start my work experience during my Bachelor' second year in one of the top 50 World NGOs. Its goal is to boost youth financial inclusion in developing countries and foster youth entrepreneurship. I worked in the Innovation department, where we developed an online platform to support young entrepreneurs. I also took part in the organization of three international pitch events.

EDUCATION

Sept 2017 – Mar 2020   **Università di Bologna**   Bologna, IT

MSc in Economics and Economic Policy

- Working on my thesis: "**Pricing to Market: the role of dollar in commodity exporting economies**".
  (Advisor: Prof.ssa Bottazzi – International Monetary Economics)

Mar 2019 – Jul 2019   **University of Melbourne**   Melbourne, AU

Semester Exchange

- During my exchange I passed with a 2HB average the following subjects: Advanced Macroeconomics (Hons. level), Advanced Microeconomics (Master level), Political Economy of Development (Master level).

July 2017   **HEC Paris**   Paris, FR

Summer School

- I attended an intensive two-weeks course in Energy Finance, with teachers coming from top firms (Deloitte, Societè Generale) and from the host university. Topics included: energy fundamentals, financing, corporate strategy and climate change.

Sept 2013 – Oct 2016	**Università di Pavia**	Pavia, IT

BSc in Economics

- Thesis: "**Fundamentals of oil pricing: an economic and geopolitical analysis**".
(Advisor: Prof. Pireddu – Energy Economics)

Sept 2008 – June 2013	**Liceo Scientifico Taramelli**	Pavia, IT

High School

- Curricula based on maths and physics.

LANGUAGES AND IT COMPETENCES

English (C1 level, fluent)

IELTS Certificate – 7 Overall

Spanish (B2 level, basic knowledge)

Bloomberg Professional

During my internship in Intesa Sanpaolo I heavily relied on the Terminal for my daily analysis. I followed oil and natural gas, metals and agricultural assets. I used to elaborate on Bloomberg data for my reports and presentations.

Stata

For my Microeconometrics, Macroeconometrics and Panel Data Analysis courses, I had to develop OLS, VAR, GMM-IV, FE, RE models with Stata. With this software I managed to study the relation between education and criminality in US States and the relation between a democracy index and the stability of the institutions in developing countries.

MATLAB

In my Advanced Macroeconomics course at the University of Melbourne, I studied dynamic growth models, stochastic growth models, RBC models and Monetary Economics models with the use of this software and its extension Dynare ++, which has been particularly useful to provide solutions with the method of undetermined coefficients.

Excellent use of Microsoft Office (Excel, Word, Powerpoint)

OTHER ACTIVITIES

From Apr 2017 to Oct 2017: *Bartender* at Mood srl – Cocktail bar, Pavia (IT)

From Jan 2017 to Jun 2017 : *External Collaborator* of The Submarine – Web magazine, Milano (IT)

From Set 2016 – now : *Founder* of Cachet Clique – Streetwear clothing brand, Pavia (IT)
