# Promoting Corporate Climate Governance

## A Guiding Framework for Boards of Directors

**Webinar: Streaming on Wednesday March 20 at 10:00 CET**

Evidence on the links between climate change and business is becoming increasingly clear. Business decisions will either slow or accelerate the pace at which climate change will unfold. Companies face growing pressure from investors to address the risks and opportunities related to climate change. Nonetheless, board of directors are currently provided with limited practical guidance to understand their role in tackling such risks and opportunities.

To help boards of directors respond to climate change, The World Economic Forum (WEF) developed a set of principles and questions designed to *practically assess and debate an organization's approach to climate governance and frame boards' thinking about how the latter could be made more robust*. This webinar will present and discuss such framework to help companies integrate the climate into corporate governance.

**Presenter:** Piero Basaglia

**Discussant:** Paola Schwizer

**Piero Basaglia** holds an MSc in Environmental Economics and Climate Change from the London School of Economics and Political Science. He is a Researcher at Fondazione Eni Enrico Mattei.

**Paola Schwizer** is President of Nedcommunity, the Italian Association of non-executive directors and supervisory board members. She is Affiliate Professor of Banking and Insurance at SDA Bocconi School of Management and Full Professor of Financial Markets and Institutions Parma University, where she teaches Risk management and value creation in banks.

*This webinar is part of the DeRisk-CO project, developed at FEEM, which aims at stimulating a debate on the importance of assessing and disclosing climate-related risks and opportunities and their impact on financial performance, with a particular focus on Italian businesses.*

*This webinar is promoted by Fondazione Eni Enrico Mattei in collaboration with Nedcommunity and the Italian Sustainable Investment Forum (ItaSif)*

*The webinar will be held in English.*
